HEALTH & FAMILY WELFARE DEPARTMENT

—————
RESOLUTION
—————

The 4th March 2014

SUBJECT—Revision of the reimbursement of Medical claim of Government Servant and their families and other entitled persons outside the State and approved private referral Hospitals within the State.

At present the treatment of Government Servants and their family members in medical institutions outside the State is regulated as per the provision of the Odisha Services (Medical Attendance) Rule, 1947, Government Resolution No. 17961-H., dated 17-05-2002 and executive instructions issued from time to time. The Resolution No. 17961-H., Dt. 17-05-2002 was published in order to avail the facility of treatment by State Government Servants and their family members and reimbursement of claims for treatment inside as well as outside the State Hospitals. When treatment facilities for a Government employee or his family members suffering from a particular disease/condition are not available in a State Government Hospital, the patients are referred to one of the approved referral hospitals and the approved cost of treatment is reimbursed keeping in view the ceiling fixed in the resolution dated 17-05-2002.

Since then ten years have already passed. The cost of treatment in the meantime has increased manifold, due to rapid advancement in Medical Science and introduction of lifesaving medicines/ drugs which cost more. Besides, State Government Servants are opting for treatment in referral hospitals outside the State of their choice and after undergoing the treatment without being referred have been claiming *post-facto* approval which invite a lot of administrative problems.

In view of the above, it has been decided by the Government to revise the package rates and issue new guidelines to regulate reimbursement of medical claims of the State Government employees and their family members. The proposed guideline has taken into consideration, the rates and guidelines of Central Government Health Scheme (CGHS) Bhubaneswar, the package rates for nearly 1300 diseases and diagnostic procedures and gives a comparative picture of some of the major diseases and their treatment in medical institutions inside as well as outside the State.
